

## Quick Reference Guide – Balance and Transaction Reporting (BTR)

The Balance and Transaction Reporting (BTR) workspace provides you with detailed balance and transaction information from the accounts you have permissions to view. There are a number of additional capabilities designed to give you quick access to desired data.

To access the BTR workspace, open the left navigation menu, click to expand the Reporting menu, then select the Balance & Transactions link.

### View Account Summary

Account Summary is a widget pinned to the BTR workspace, lists the balances of accounts that you have access to view.

Account Summary is a widget pinned to the BTR workspace, it is organized by multiple functional tabs based on your permissions:

- All Accounts
- Balance History
- Account Activity
- Export
- Incoming Wire Detail

### ALL ACCOUNTS

Account information is presented in two formats: (1) a tabular, list view or (2) a tile view. You are able to toggle between these two formats via the icon that appears in the upper right corner of the Account Summary widget in order to view accounts based on your preference. Both formats present accounts in groups, based on account types: Deposit, Loan, Investment and Other.

As with standard capabilities, the list view(s) in BTR can be personalized by you – sort data in a column, display desired columns, arrange order of columns and filter data. You can save multiple personalized views for later use. Data can be printed and exported.

The tile view offers a convenient account transfer ability by using your mouse to “drag” a tile onto another tile to indicate the from/to account pair for the transfer. On clicking and dragging the FROM account tile, the screen will adhere to pre-set transfer permissions and disable (by fading out) the accounts that are not set as a “TO” account.

When drag & drop tiles have met the eligibilities, a Quick Transfer display will open, pre-filling the FROM/TO accounts information. You only need to complete the desired amount.
